

The chart displays the percentage of respondents who believe the U.S. is a threat to their country, categorized by country and threat level (Very much, Somewhat). The x-axis represents the year from 2015 to 2025. The y-axis represents the percentage of respondents, ranging from 0% to 100%.

Legend:

- Very much (Dark Blue)
- Somewhat (Light Blue)
- China (Red)
- Russia (Green)
- Iran (Orange)
- North Korea (Purple)
- Other countries (Brown)

Key Trends:

- China (Red):** Shows a significant increase in perceived threat, rising from approximately 35% in 2015 to over 60% by 2025, with a sharp spike in 2023.
- Russia (Green):** Shows a significant increase in perceived threat, rising from approximately 25% in 2015 to over 40% by 2025, with a sharp spike in 2023.
- Iran (Orange):** Shows a significant increase in perceived threat, rising from approximately 15% in 2015 to over 30% by 2025, with a sharp spike in 2023.
- North Korea (Purple):** Shows a significant increase in perceived threat, rising from approximately 10% in 2015 to over 20% by 2025, with a sharp spike in 2023.
- Other countries (Brown):** Shows a significant increase in perceived threat, rising from approximately 5% in 2015 to over 10% by 2025, with a sharp spike in 2023.
- Very much (Dark Blue) and Somewhat (Light Blue):** These categories show a general decline in perceived threat over time, with the 'Very much' category dropping from approximately 15% in 2015 to around 5% in 2025, and the 'Somewhat' category dropping from approximately 25% in 2015 to around 15% in 2025.
